

Donation Policy

Both Capital City Equipment, LLC & Schultz Small Engine are proud to be members of an amazing community. We love to support area organizations. Our philosophy of giving back revolves around building a mutually supportive relationship. Please consider our policy prior to contacting us. Our small business has many moving parts. When you ask for a donation, we ask that you please provide at least two members to come in and perform small tasks for a one hour minimum. Tasks we ask to be completed are things like window washing, sweeping, mopping, and organizing. In turn, we will support your organization with a donation. We appreciate your support through tagging us on social media as well. We look forward to building mutually supportive relationships in our community. Reach out if you'd like to move forward.
